

I am writing to let you know that K-Love is without compare in my area. No other station provides the positive, commercial-free christian programming that K-love gives. If K-love were to be displaced by an LPFM broadcaster it would be presonally disasterous for me and my family, and, I think, for many many other listeners and future listeners. It is in the public interest to have this wonderful, positive, elevating programming available to families and teens in particular to combat the smut and negative things available everywhere else.
